## **The ski season in Les 2 Alpes starts on 29 November 2025 and ends on 5 July 2026!**

From Saturday 29 November 2025 to Sunday 3 May 2026, Les 2 Alpes welcomes skiers and boarders on its ski area between 3,600m and 1,300m. With 220km of slopes, and 75% of the ski area above 2,000m, quality skiing is guaranteed!

Les 2 Alpes is one of the only resorts where skiing doesn't stop at the end of the winter. The high-altitude area between 3,400m and 2,600m stay open for skiers and snowboarders from 4 May to 5 July.

### **New for winter 2025-26**

**Ski Safe Team:** a team of 77 ski patrollers keeps the slopes safe and educates skiers every day. Known as the Ski Safe Team, these patrollers are stationed throughout the ski area to offer friendly advice. Their goal is to help skiers have a more relaxed and responsible experience on the mountain.

**La Balade du Jandri** is a new scenic area along the Jandri blue run. Located between 3,200m and 2,800m altitude, this area is designed for skiers who want to take their time and enjoy the spectacular mountain views.

**This winter, two new magic carpets have been added at the first stop of the Jandri at 2,600 (tapis Express and tapis Grand Plan)** so skiers can easily access the Chalet de la Toura restaurant and the Toura ski area.

**To make sure that beginners have good snow, new learning areas at high altitude are being created:** the learning area at 2,100m has been redesigned, there is a new beginner area at 2,600m and SATA, the lift company, plans to create a new one at 3,200m

**The resort's swimming pool and ice rink have been completely renovated.** Over 5 million euros have been invested to create a modern outdoor pool and an indoor ice rink using an innovative system. The ice rink refrigeration is replaced by a technology that recovers heat to heat the pool.

**This winter, the Bureau des Guides in Les 2 Alpes is offering two new snowshoe adventures.** The first is a high-altitude snowshoe hike at an altitude of 3,200 metres with long vertical drops and breathtaking views. This hike is for sporty people.

**Two hotels built in the 70s are being renovated for this winter:** Le Sherpa and La Belle Etoile. Both will offer cosy alpine charm at an affordable price.

**On the slope, the 3,200, the restaurant located at 3,200m accessible by the Jandri, has new owners.** The restaurant now has 3 areas: an area for snacking, a self-service and a gourmet restaurant.

**The food delivery company Heat Delivery will now deliver on the slopes!** Choose a picnic sport or an indoor picnic area and enjoy a warm lunch. Heat Delivery cooks with fresh and local produce and uses, sustainable tableware and reusable insulated containers.
