Preamble

The discipline of MARATHON DOWNHILL MOUNTAIN BIKING (DHM) is governed by the International Cycling Union and the French Cycling Federation in Title IV, Chapter 4.3.001.

In cases not covered by these regulations, reference should be made to the general regulations of the International Cycling Union and the French Cycling Federation.

ARTICLE 1 – DEFINITION

On June 19, 20, and 21, 2026, Les 2 Alpes Tourisme is organizing the "MOUNTAIN OF HELL" with the support of the municipality of Les Deux Alpes and the company SATA 2 Alpes. This event will be held in accordance with the sports code of the French Cycling Federation and these regulations.

The Mountain of Hell is a Downhill Marathon mountain bike race. Each participant must demonstrate sufficient technical skill to take part in this competition, including riding on snow, freeriding, and descending the black trails of the 2 Alpes Bike Park. Downhill Marathon events are competitions with mass starts (Mass-Start MTB) on downhill courses featuring a variety of obstacles and jumps, which favor strength, endurance, skill, improvisation, and daring, making use of the technology specific to versatile mountain bikes (MTBs). The race committee and the panel of referees reserve the right to modify these rules at any time to ensure the safety of participants. All competitors taking part in this competition are expected to be familiar with these rules and agree to comply with all of their provisions without reservation. The panel of referees shall be the sole authority responsible for enforcing these rules.

ARTICLE 2 – PARTICIPATION AND SPECIFIC DETAILS

2.1 Specific features of the Mountain of Hell (muscle-powered mountain bikes only)

With the exception of the specific rules below, which apply only to electric mountain bikes:

- A time barrier will be in place during the Final, at 10:30 a.m. at the entrance to the Venosc track.
- Use of the red Venosc track is mandatory; the Black Garden track is strictly prohibited for this category.

The Organizing Committee draws the attention of competitors to the fact that a spirit of sportsmanship and responsibility must prevail. It is the responsibility of each participant to take the time to inform the nearest first aid station if they see an incident or accident whose severity requires medical attention. Failure to do so may result in sporting sanctions.

Participants who come to the aid of another competitor who is known to be injured may be granted a time credit upon request, based on the following procedure: the time between the first call to the emergency number to report the incident and the next call before setting off again after the emergency team has taken over (please note that confirmation is required to validate the departure time from the accident site).

Competitors must complete the entire race wearing the protective equipment required by the event regulations, otherwise they will be disqualified.

Cameras are only allowed on the visor with a removable device or on the handlebars of the bike (under no circumstances should they be placed on the participant's chest protector).
